## **Wan Hai Lines Evolves Fresh Produce Shipping Sector**

**Taipei, Sep. 7, 2016** – The 10th Asia Fruit Logistica is held from September 7 to September 9 at Hong Kong's AsiaWorld-Expo, which offers opportunities for exhibitors and visitors to make business contacts on the fresh produce sector and related value chain for the whole Asian region. Wan Hai being an expert of reefer shipping services has rented a booth to provide professional consultancy with the customers.

Wan Hai indicates that in addition to dry cargo shipments, the company is keen on reefer container services with decades of physical experience. Due to surging growing fresh fruit and vegetable markets in China, India, Myanmar and so on, Wan Hai constantly invests in equipment update and service quality enhancement to satisfy customers' need. Wan Hai continues to explore South American market while steadily maintain the excellent business performance in Asia region.

Wan Hai's reefer container offers adjustable temperatures of between  $-40^{\circ}\text{C}$  and  $+25^{\circ}\text{C}$  which equipped with sophisticated monitor system module that controls temperature, humidification, and ventilation to ensure quality of the consignment and give alerts to technicians for real time trouble shooting throughout the entire transportation route.

The booth information is as follows:

Date : 9/7-9/9

Address : Cheong Wing Rd, Chek Lap Kok, Hong Kong

Booth : 3C Hall / Q-27

Official website : <http://www.wanhai.com>
